

Dear AOAC SEA Members,

Greetings from AOAC Southeast Asia Section!

AOAC SEA Section was approved to form by AOAC International in 2021 and since then we have continuously worked to engage SEA stakeholders from government, academia, and industries. AOAC Southeast Asia Section aims to serve as an effective vehicle to:

- drive the development of analytical competence and capabilities through mutual recognition;
- improve the standards and performance of analytical science;
- involve governments, industry, technology service-providers, and academia across the region; and
- foster more public-private engagements, which will bring tremendous benefits for the consumers and economies in this region.

AOAC SEA has four office-bearer positions that form the Executive Committee (ExCom). President-Elect, Treasurer, and Secretary positions were elected and formed in 2021, and have completed a tenure of two years. As per the Bylaws, we seek this opportunity to invite nominations of AOAC SEA members who would like to nominate themselves or other capable members for the positions of President-Elect, Treasurer, and Secretary. The roles and responsibilities of these positions can be accessed at <https://aoac-sea.org/aoac-sea-bylaws/>. For members nominating other members, please gain consensus for nomination before nominating.

Nominations can be sent via email to AOAC SEA President (Dr. Xinping Hou) and Section Mentor (Dr. Erik Konings) at [info@aoac-sea.org](mailto:info@aoac-sea.org). A brief profile of the nominated individual along with a statement of interest in the aforementioned position is required.

For further information, please email us at [info@aoac-sea.org](mailto:info@aoac-sea.org).

Best regards,

AOAC SEA Executive Committee
