

24 Mar 2025

[24 Mar 2025, 8:00-9:30pm GMT+8] AOAC SEA WG Meeting: Pesticide Residue in Spices

A belated Happy New Year to everyone! It's been a while since we last connected, and we hope the new year is off to a fantastic start for you all!

Taking from the successful engagement from the last Annual Meeting in the Philippines and the finalization of the Priority Lists of Compounds and Commodities, our Working Group is ready to tackle the next phase of the big tasks.

From 8:00 to 9:30 pm (GMT+8) today, 24 March 2025, the WG will hold a virtual meeting with topics include:

- Recap of Project Milestones
- Outcomes of AOAC-SEA Annual Conference, October 2024, Philippines
- Discussion: Priority Lists for Commodities and Compounds
- Discussion: Development of Guideline Document

- Call for Financial Contributors
- Conclusion and Next Steps

To become a member of the WG and receive meeting invitations and WG resources, please fill out the form below.

Looking forward to our continued collaboration!

2025 AOAC SEA 4th Annual Conference Announcement

The 2025 AOAC SEA 4th Annual Conference will be held in October 2025 in Bangkok, Thailand.

Building on the success of previous events, including the 2022 inaugural conference on "Food Safety: Regulation and Analytical Science," the 2023 conference on "Facilitating Compliance for Food Safety and Quality in International Trade," and the 2024 conference focused on "Bringing Together Government, Industry, and Academia to Advance Analytical Excellence for Food Safety," this year's conference will continue to unite dedicated professionals from across Southeast Asia and beyond.

We look forward to welcoming you to Bangkok for a program filled with insightful presentations, engaging discussions, meaningful connections, and valuable collaborations.

**LABORATORIUM
LPPOM MUI**
Advance Testing with Integrity

Our objective in joining AOAC Southeast Asia (AOAC SEA) is to expand our international network, stay updated on emerging issues in product safety, and gain insights into global regulatory developments relevant to laboratory testing. As an organization that plays a proactive role in developing, harmonizing, and ensuring the quality of testing methods, AOAC SEA aligns with our vision to continuously enhance our laboratory capabilities and uphold international best practices.

By becoming a member, we aim to:

1. Strengthen collaboration with international laboratories and regulatory bodies
2. Stay ahead of global trends in food safety, quality control, and laboratory testing standards
3. Gain access to cutting-edge advancements in analytical methods and quality assurance
4. Contribute to discussions on method harmonization and laboratory accreditation

Joining AOAC SEA will not only benefit our laboratory in adopting globally accepted methodologies but also enhance our contributions to the industry in ensuring product compliance and safety at an international level.

Hybrid Workshop on "Enhanced Water Quality Assurance through Improved Measurement Capabilities for Pesticide Residues Analysis"

Members of AOAC SEA are invited to join the hybrid workshop titled "Enhanced Water Quality Assurance through Improved Measurement Capabilities for Pesticide Residues Analysis" on 5 May 2025 in Singapore.

On behalf of the Asia Pacific Metrology Programme (APMP), the workshop is organized by the Health Sciences Authority (HSA), Singapore and the National

Institute of Metrology (NIM), China. The event is open to all interested Chemical Metrologists, Analytical Scientists, researchers, students, etc.

The deadline for registration is Friday, 11 April 2025. For any enquiries, please contact the APMP workshop project overseer, Ms Cheow Pui Sze at hsa_cml@hsa.gov.sg.
